

By Kevin Siembieda

Our imaginations are on fire! The source material written for [The Rifter® #73](#) is the same quality you would see in one of our game line sourcebooks or World Books. The ideas, fresh. New. Challenging. And most of all, fun. Things that should inflame the imaginations of Game Masters and enthrall players.

I'm happy to say, you'll find more of the same in upcoming sourcebooks for **Rifts®**, **Palladium Fantasy®**, **Robotech®**, **Splicers®**, **HU2** and all the rest. Our imaginations are on fire. We have big plans for Robotech® RPG Tactics, Rifts® and all our game lines. And you'll be seeing a lot of them happening this year.

I know what you are thinking. It was voiced by a fan and supporter last weekend: "That sounds great, but ... I'm sorry, but the last few years Palladium has been unable to release more than four new books. Why should this year be any different?" A fair question. I'm going to keep my answer brief.

We have gone through a lot the last several years, professionally and personally. Events, tragedies and challenges knocked us down and took the wind out of our sails. But things change. We have mustered our strength, found renewed energy and motivation, and we are fired up and committed to shower you – all of you – with an array of new products that will excite you and leave you wanting more. Palladium is moving forward with support for our many role-playing game lines. We expect to be able to move **Robotech® RPG Tactics™ Wave 2** along much more quickly now, have big plans for it and other Palladium game lines, and hope to see new third party ventures, like

Rifts® Savage Worlds

, expand the Palladium Megaverse®. All are things that should surprise and please you.

Will we miss release dates? I'm sure we will, but by days or weeks, not many months or a year. The proof will be in the products that are going to be out soon. And we are coming out of the gates with **The Rifter® #73** packed with "official" source material that is going to knock your socks off. You wanted lots of products. Well, you are going to get them. Please show your support by purchasing them and spreading the word about them.

The Rifter® Super-Subscription Drive – Low Price – Free Gift

It only happens once a year – for a limited time – [**The Rifter® Super-Subscription Drive**](#) . We want people to discover **The Rifter®** as a valuable resource, so during the Super-Subscription Drive we offer a selection of FREE gifts as an additional enticement to subscribe. Gamers already familiar with **The Rifter®** always jump at this offer. That's because even when late, **The Rifter®** has been so consistently good, it is hard to say no to the [**Super-Subscription Drive**](#) .

The free gift is always a nice incentive,

unique and fun. I have dug through the Palladium archives to make a number of out of print titles and “special” items available. For us, gaming is all about friends and fun, so enjoy and have fun. **Note:**

The early issues of **The Rifter**

® are limited and available only while supplies last. Please keep the orders coming and enjoy.

Here are four reasons (and 7 gift choices) why this is the perfect time to *try* The Rifter® or *renew* your subscription:

1. *Save \$16 off retail* and each issue is delivered right to your door.

2. *FREE gift* worth \$17.90 to \$35.85 when you order now! 7 gift choices.

3. Order during the Super-Subscription Drive to lock in your low, low subscription price for the next year.

4. The Rifter® has been outstanding and is the place to find regular source material for

Beyond the Supernatural

™

, Palladium Fantasy®, Splicers

®,

Dead Reign

®,

Heroes Unlimited

™ and other settings. And future issues will have more player and G.M. tips, and more “official” source material.

If you haven't taken a look at *The Rifter*® lately (if ever)

, I suggest you try an issue.

The Rifter® is an excellent gaming resource. A place to find ideas as well as characters, monsters, villains, powers, magic and adventures for your own game. Characters, powers and equipment you can drop into most game settings with little or no modification. Even articles designed for settings you don't play are likely to offer ideas and material you can easily modify and incorporate into your campaign. In fact, drawing on concepts from outside the usual setting can spice up your game and keep players guessing.

The Rifter® is

a great tool for that. The beauty of Palladium's

Megaversal Game System

is you can often take characters, gear and ideas from one world setting and drop them into ANY of the other settings with no or little work. Other times, the amount of modification is minimal to make it work in a different setting. That means a monster from

Palladium Fantasy

® can be a creature, mutant or alien in **Heroes Unlimited™**, **After the Bomb®**, **Robotech®**, **Rifts®**, **Nightbane®**, **The Mechanoids®**, **Chaos Earth®**

or

Splicers

®, and

vice versa

. What needs to be adjusted? Perhaps just changing Hit Points/S.D.C. and damage to

Mega-Damage, or M.D.C. and M.D. to Hit Points/S.D.C., or some other minor tweaks.

Characters from **Heroes Unlimited**[™] and **After the Bomb**

® can be from the future, or the past (depending on the setting), or they can be mutants, or aliens, or beings from another or parallel world. As I am so wont to say, *you are limited only by your imagination*. The same holds true for towns, cities and adventures – use that place and the adventure ideas tailored to a different setting. Sure you may have to swap out monsters and treasure, or adjust motives, but you might be surprised how easy, fun and different that adventure plays out in a different world environment.

The Rifter® is the ultimate source for alternative, new and different ideas, rules, adventures, characters, and story ideas. All of which can be tweaked to fit most settings, as can optional rules.

Rifter

The

®

is a factory for alternative ideas.

NEW! The Rifter® #73 – Ships Early February

The Rifter® #73 is in final production. Articles have been selected and most of it, if not all, is *“official” source material!*

If that is the case (and I think it will be), it is the first time an entire issue of

The Rifter

® contains all “official” source material. A good way to kickoff Palladium’s 35 Year Anniversary. In final production and should go to the printer in a week or so.

Every issue of The Rifter® is an *ide a factory*

for players and Game Masters to generate new ideas and find new avenues of adventure. It provides useful, ready to go source material you can just drop into your ongoing games. A doorway to new possibilities and numerous Palladium role-playing worlds. And the many new characters, O.C.C.s, powers, magic, weapons, villains, monsters, adventures and ideas for one setting can be easily adapted to *any* Palladium setting. Every issue has

material for

Rifts

® and at least 2-3 other Palladium game lines. And don't forget, most of the material can be easily adapted for use in ANY Palladium game setting.

Rifter® #73 Highlights:

- **Rifts® – Nexus Born, by Julius Rosenstein – “official” source material.** Why is it that some children born at a ley line nexus are gifted? Find out, and find out exactly what these gifts are and how they can impact player characters and NPCs. New concepts, NPCs and adventure source material. Additional text and

ideas by Kevin Siembieda.

- **Palladium Fantasy RPG® – Children of the Forest, by Kevin Siembieda – “official” source material.** More insight about the Wolfen and Faerie Folk of the Great Northern Wilderness. Plus a new villain, new monstrous war steed, magic weapons and an adventure set in the Palladium Fantasy world that lets you use all of this data and new toys.

- **Splicers® – I am Legion, Part Two, by Charles Walton II, Chris Kluge and Lance Colley – “official” source material.** The adventure continues as your heroes must deal

with the plight of contending with the new Machine personality known as *Legion*

. In this adventure, the player group is given instructions from the Warlord, himself, to learn more about this enemy, and if possible, use a special weapon to bring it down. But nothing ever works that easy. New War Mounts, O.C.C. upgrades, NPCs, and more, including the very first time a *Splicer Warlord* is ever statted out.

- **Dead Reign® – Detroit, by Thomas Morrison – “official” source material (tentatively official)**

. The title kinda says it all. The city of

Detroit and its suburbs in the Zombie Apocalypse. An adventure setting plus a couple of new zombie variants.

- Rifts® – short story by S.E. Gibbons.

- News, coming attractions, product descriptions and more.

- **Fantasy cover by Michael Wilson.**
- **96 pages – \$13.95 retail – [Cat. No. 173](#)**

threaten to change the entire landscape of Rifts® Earth, as the demonic minions of Hades and Dyval seek to bring Hell on Earth and turn the planet into a dimensional gateway to Armageddon!

The Coalition States, along with Northern Gun and Lazlo, take the lead in the defense of North America. Heroes of Humanity explores the good and bad in the

Coalition's efforts to save humanity and send this new threat back to the pits of Hell.

Rifts® Secrets of the Coalition States: The Disavowed™ – March

“Desperate times require desperate measures. War has

nothing to do with morality or justice. It's all about winning or dying. We cannot bind our hands with high ideals, even our own, or worry about the laws of renegade nations or the rights of alien people. We must fight fire with fire. And you are the match.” – *Colonel Lyboc addressing a Disavowed team*

The Disavowed are so Top Secret that their existence is known only to a handful of the Coalition States' most elite, top echelon, with *Joseph Prosek II*

the mastermind behind the Disavowed operation, and Colonel Lyboc its shadowy face. Find out who these men and women are. How the Disavowed get away with using magic, traveling to other parts of Rifts Earth and even

to other dimensions in pursuit of enemies and strategic information that cannot be had through conventional means. Learn about the secret parameters in which these hard-boiled warriors, secretly hand-picked by Joseph Prosek II, operate, why almost every mission is considered a suicide mission, and why they must forever be the Disavowed.

- CS operatives so secret that even the top military and political leaders right up to Emperor Prosek *know nothing about them* .
And if they did know, would they condone their activity or condemn it?

**- Are the Disavowed heroes or renegades?
Assassins or soldiers?**

**Madmen or super-patriots?
Or a little of them all?**

- Unsung heroes who keep the CS safe, or thugs and pawns of a shadow agency within the Coalition government?

- What role does the Vanguard play in this group?

- How do they reward their D-Bee “teammates” when the mission is over?

- **What happens to the Disavowed when they have seen or learned too much? Adventure ideas galore and so much more.**
